X-7310 DATA CASSETTE \$75.00

Allows you to save or load programs for your VZ onto a cassette. Essential for those who want low cost, reliable program storage.

X-7315 JOYSTICKS & INTERFACE \$54.95

Enhance the enjoyment of your favourite VZ game (and save wear and tear on your keyboard). Two joysticks allows easier playing on those games that allow two players.

X-7320 PRINTER INTERFACE \$39.95

Allows your VZ to connect to any standard centronics type parallel printer.

X-7350 WORDPRO CARTRIDGE \$69.95

This a surprisingly full featured word processor, that allows you to enter and save text on cassette or floppy disk. You can enter and edit your text in memory until it is perfect and then print it out on the printer. As the program is contained in its own ROM you will have the maximum amount of memory to contain your text.

SOFTWARE

X-7232 POKER \$4.95

Straight draw Poker. Just you and the computer in a face-off. As with normal Poker, you can bet, raise, call and even bluff and fold. Be warned though, the computer has the uncanny ability to know what cards you have, simply by watching the expression on your face! As with the real game you can draw up to four cards but the secret is in knowing just what to throw away.

X-7233 HANGMAN \$4.95

Based on one of the world's most popular games, Hangman is not only fun but is educational too! Players have to guess the letters of a secret word of up to eight characters in length. Correct guesses will 'build' the word and give the player another chance, however, incorrect guesses can be fatal as you will see! You could get hung!

X-7234 SLOT MACHINE \$4.95

Your legs will probably get tired from standing in front of this one watching your money disappear. The odds are exactly the same as a real slot machine so you could just need a bucket to carry away your winnings!

X-7239

VZ-INVADERS

\$14.95

Just like the arcade favourite, this version will keep you very busy as you try to avoid the bombs from the invaders as they get ever closer. Only quick action will save the day in this game. Excellent graphics and good sound keep up the enjoyment (Joystick use optional).

X-7242

VZ GHOST HUNTER

\$14.95

Another incredibly good version of the arcade favourite. You'll be kept very busy as you try to avoid being eaten by the ghosts, but don't forget, you've got four power pills per frame. Get to the power pills and turn the tables as you go ghost hunting. Incredibly good graphics and plenty of action will keep you busy for hours (Joystick use optional).

X-7243

HOPPY

*

\$14.95

Another enjoyable arcade game, this version will make life hard for you (if you are a frog) as you try to weave your way through the high speed traffic. If you are fortunate enough to survive that, you then have to negotiate the river. Fortunately, you have logs and friendly turtles to help in your quest. One last problem awaits you at your destination, a roving alligator! Great graphics (Joystick use optional).

X-7244

SUPER SNAKE

*

\$14.95

Quick response and the lightning ability to analyse the situation and make decisions will help to generate big scores for this unusual game. You are a snake and in order to grow you must seek the 'food' which appears randomly, as you eat, so your 'tail' will grow. The object of the game is to continue to be able to move around your area without either touching any part of your own tail or the walls. Four levels of play with nine speeds in each make this game a real challenge (Joystick use optional).

X-7245 KNIGHTS & DRAGONS \$14.95

Can you find your way through the woods and to the safety of the castle while you are being pursued by the Dragons? The more skillful you are at avoiding the dragons, the more gold you will get as your reward for making it safely to the castle. But remember, the next time there will be more dragons.

X-7247 STARBLASTER * \$14.95

A classic arcade game, you are flying through interstellar space and you must fight off the enemy starships and destroy their convoys to win. Beware the enemy star fighters, they come straight at you and if they hit you, you have lost. This is an interactive graphical video game, that can be run from key board (Joystick use optional).

X-7248 ASTEROIDS * \$14.95

This is the VZ version of that popular arcade game. You must blast the rocks and avoid the alien sources to survive. Watch out, the aliens are shooting back and if you get all the rocks the next frame will be harder. This is an arcade graphics game with control using keyboard (Joystick use optional).

X-7251 STATISTICS I * \$4.95

This mini-course will provide the user with both a theoretical and a practical course in statistics. It covers such areas as Mean Virance, Standard Deviation, Geometrical Mean and Deviation, Binomial Distribution and Poisson Distribution. The package utilises the teach and test method and is very easy to follow.

X-7252 STATISTICS II * \$4.95

As above, this second section complements the first by adding more complex equations and introducing further material. It covers areas such as Chi-Square Test, Linear Coefficient and Linear Regression.

X-7255 INTRODUCTION TO BASIC * \$14.95

This program is broken up into six sections that will lead you through the mystical world of commands and statements used in BASIC. Each section will detail various commands and will show you how they are used. The program will also provide practical uses with a question and review section for each topic. Highly recommended for the beginner.

X-7258 TYPING TEACHER \$14.95

This program is designed to provide a more than useful tool with which to improve your keyboard skills. A detailed display of the keyboard is provided on the screen and you are requested to press keys which will be displayed at random while a clock runs. You will be scored over a fixed time period and a determination made based on the number of keys pressed correctly. A program that will definitely improve your keyboard dexterity.

X-7259 MAIL LIST * \$14.95

A great way to keep track of all your friends! You can enter up to 200 names, addresses and telephone numbers. You can store them on a separate tape and even print out mailing labels (if you have a printer).

X-7268 LADDER CHALLENGE \$14.95

Another in the series of great arcade games that have come to the VZ. You must climb ever upward and dodge the missiles thrown down at you from above. Can you climb the scaffolding before you are dislodged? A graphical game (Joystick use optional).

X-7270 VZ PANIC \$14.95

You are on a scaffolding surrounded by enemys. You can dodge them or you can trap them into holes that you must dig with your shovel. But remember, the holes will have to be filled in if you want to destroy them. Another fast moving graphical arcade type game (Joystick use optional).

X-7271 OTHELLO \$14.95

One of the oldest board games known to man, comes into the computer age. The object is to capture your opponents territory by surrounding it with your markers. But remember the computer is attempting to capture your territory at the same time. Are you prepared to meet your computers challenge?

X-7272 DRACULA CASTLE # \$14.95

This is a wonderful graphical adventure game. You must find your way around the castle and try to escape before you are taken by the monsters. Will you escape before you are killed?

X-7273 BACKGAMMON \$14.95

With this program you will never have to be short of a partner again when you wish to play backgammon. Will you be able to beat your computer?

X-7274 ATTACK OF THE KILLER TOMATOES * \$14.95

Another fast moving graphical game. You are being pursued around the garden maze by the killer tomatoes. The only way to stop them is to dig a hole and let them fall in. Remember, you must fill the hole in on top of the tomatoes or they will escape and chase you. If they catch you, you die (Joystick required).

X-7275 CHESS \$14.95

The master battle game comes to the computer. This remarkable chess program will bring you the wonders of the game on your VZ.

X-7276 MUSIC WRITER * \$14.95

A graphical music program that allows you to compose your tunes on the screen and then play them back. You can even save you music on a seperate tape and play it back later!

X-7330

SPRITE GENERATOR

\$24.95

This is a utility for advanced programmers that allows you to create easy to use graphic shapes. The graphics can be quickly moved around the screen as a unit. Makes animation of your graphics a lot simpler.

X-7331
